Experience Camps strongly believes that no camper should miss out on camp because of transportation needs. Transportation scholarships will be available to campers on a first come, first served basis. Caregivers must submit an application, which will be reviewed by the ExCamps National office. For financial assistance with travel, please complete this [application](#).

We ask that each camper bring a photo or memento of the person who died.

*We **do not** allow electronics at camp. Please leave anything with a screen at home. This includes phones, iPads, handheld video games, etc. No Food.* Campers do not need any cash while they are at camp. In fact, it's better if you don't send them with any!

Please LABEL EVERY SINGLE ITEM!

Communication Tips & Guidelines

Below are a few guidelines to help set expectations with your camper AND for you to get comfortable with what the week of camp entails.

Communication While at Camp

Part of the experience of camp and the amazing bonds that are formed is being away from your caregiver! We know that's hard to read as a caregiver, but it's true. We have put in place the following guidelines to allow for a fully engaged week of fun. We've also been doing this for a long time and it works!

- Unless your camper will be flying to camp as an unaccompanied minor, please do not send cell phones with campers to camp. This is a screen-free week! They can bring small music players that do not have cellular service. If cellphones are brought (for travel or other reasons), we will hold them in the office for safe keeping during the week.
- You will not be able to make or receive calls or exchange emails with your camper while they are at camp. No news is good news. **If there is an issue, one of our directors will call you!** If you need to reach us in case of emergency, please contact a director listed above.
- A daily note will be sent home via email each day and will include a link to the day's photos. If you do not have access to email, we suggest that you give us someone's contact information who can print out the emails for you, so you can read about what they do each day. It will help with conversation starters when your camper returns home after camp.
- If you're on Facebook, Instagram, or Twitter, be sure to follow us! We post a lot of information, articles, pictures and videos throughout the year.

Communication Regarding Medical/Health Issues:

- If there is any emergency, our medical staff or a director will immediately call and indicate that the call is an emergency.
- You will also be called if your child stays in the Infirmary for more than 24 hours, or needs antibiotics.
- In view of that, if you receive a call from the Infirmary regarding a medical issue, the purpose of the call will be stated clearly at the outset. We hope this policy will add to your ability to remain calm and confident that we have both your and your child's best interests at heart.
- A fully equipped Infirmary is staffed 24 hours per day. We always have medical staff on-site.

One More Thing:

- A lot of first-time campers (and even a few returning campers), get nervous as camp approaches. They might be worried about leaving you and they might sense that you're sad and anxious about it as well. Please remember: this week could very well change their lives. It's unbelievably fun and chances are, once they arrive they are going to be GREAT. Instead of saying "you don't have to go", say "I know you're going to love it." And then put them on the bus. We can't wait to see your camper this summer!
